Sound Advice.

The Grayson Tribune delivers some sound advice to its readers, and this advice is as applicable to Clay City as to Grayson:

"Stand by your own town. It is the only way to get anything; it is the only way to have anything; it is the only way to make the town prosperous and useful. United action is the only way to accomplish your ends. The power of twenty elephants pulling in opposite directions is nothing; pulling in one direction is irresistible. A handful of drilled men will put a mob of hundreds to flight. It is their united, concerted action which gives them the power. The mob individually may be as brave and more powerful and the devil take the hindmost, he usually gets them all. Work for what you see is the best interests of the town, on any and every occasion, no matter whether it shall seem to be to your credit or not. In the end you will reap a reward a hundred fold and will also have the confidence and respect of your fellow citizens, which is worth more to you than money, and which no money can buy. One public-spirited citizen is valuable to any town; a united city of them is irresistible; they can get

everything they want, and the community will be prosperous in the face of all adversity."

Valuable Lecture.

A. Mackenzie Meldrum will deliver a lecture at the Christian Church Friday night the 21st. Mr. Meldrum has been around the world and in every interesting country on the globe. He carried with him his camera and secured views of all interesting places, objects and occurrences, and will illustrate his lecture with these views. He is full of information and will deliver it freely. It is well worth the price, 25c and 15c. The Rev. B. W. Trimble will deliver a temperance speech just before the lecture, which of course will be free. Everybody invited to attend these lectures.

The Republicans of Kentucky will hold their State convention at Louisville May 6 to select four delegates from the State at large to attend the National convention at Chicago June 16. The delegates to said State convention will be selected by county mass conventions at the county seats April 25. One delegate for each 100 votes, which entitles Powell county to six delegates to State convention.

Twelve Months Dead Line.

By order of the Postoffice Department all weekly papers can no longer be mailed as second-class matter to subscribers twelve months or more in arrears. In complying with this new ruling we have been compelled to cut off 300 names, and all subscribers from this time on will have to be promptly dropped when their subscription becomes twelve months past due. Please keep yourself from under the dead line by paying one year in advance. Publisher.

To Organize Booster Clubs.

Rush C. Watkins, chairman of the State organizations committee of the Commercial Club, is vigorously pushing a plan to make Kentucky the banner State as far as commercial organizations, similar to the one in Louisville is concerned. The project means the establishment of a Commercial Club in every secondary city in the State which so far has no organization to look after its welfare and boom its interests.

Already Kentucky's commercial organizations rank high both as regards number and importance. If the plan which Mr. Watkins is back of comes to a successful culmination there will hardly be a town of any importance in the State which is without a commercial organization of some kind. Towns without commercial organizations are: Paris, Dayton, Bellevue, Franklin, Russellville, Fulton, Pineville, Stanford, Williamsburg, Latonia, Bardwell, Clayton, Carlisle, Campbellsville, Providence, Columbus, Vanceburg, London, Redash, Falmouth, Elkton, Mt. Washington, Midway, Springfield, Owingsville.

We hope to see Mr. Watkins come to Clay City in making his rounds and see if he can't wake up our sleepy-eyed Commercial Club which was organized three years ago. Now is a good time for such club to work, there is but little else to do.

President Froman's Address.

President Froman of the Kentucky State Farmers' Institute now in session at Frankfort, in his opening address said the State Farmers' Institute had been a success and had done much to advance the work of agriculture meant the success and prosperity of the people. He said the farms have become depleted by cultivation until it is now necessary to have scientific farming so as to get the best results. Careful attention to detail, he said, was one of the most important things on a farm, and upon good order depended success.

"To sell at a price above the cost of production is the key to success for the farmer," said Mr. Froman. "The manufacturer has this right and the farmer has the same right, and to control the market production must be controlled. A surplus is a loss, and it is better not to produce than to sell at a loss. The great mistake the farmer makes is to put out immense acreage of any crop which is selling at a high price. The best way to fix this price is to produce to meet the demand and by organizing branches of the American Society of Equity. The farmer should keep a set of books just like any other business man. He can tell

then what the price will have to be to give him a profit."

Mr. Froman urged that all farmers should organize. He said the farmers must be loyal to each other and forego temporary self gain in order to further the common good. They wanted some plan by which the farmer can control the price of the farm products, calling attention to the enormous value of farm products. He showed that the wealth of the country is based on the farm product, but that the wealthy people are not the farmers, and the farmers do not live in the comfortable homes that they should. The immense sums spent in Europe each year by the rich people of this country was shown by Mr. Froman, and he said this meant that the farmers have a great problem to solve. He said it must be done according to law and by lawful methods. He urged that organization would give the farmer power to curb the trusts and regulate the corporations so as to help the interests of the people.

Mr. and Mrs. John Burgher, of King's Mills, Ohio, are with relatives in the city. The large manufacturing plant in which Mr. Burgher was employed, has closed down.

Mr. and Mrs. John H. Hardwick, of Stanton, are the proud parents of a new son, born, Feb. 13, 1908.

Bridges to be Finished.

The steel has arrived for both the bridge at Stanton and Bowen, and Mr. Rankin is on the ground to have the work put up. The foundations for the bridges were finished last fall so there is now nothing to do but to go on with the main construction. When these bridges are completed, there will be five important crossings on Red river in Powell county spanned by modern steel bridges.

In the \$10,000 damage suit against Berea College by Thomas Baker, aged nineteen years, on an alleged charge of malicious prosecution, Baker was in court to-day given judgment for \$500 at Richmond.

Judge Riddell's Successor.

J. P. Adams, Commonwealth's Attorney, in the 23rd judicial district, has been appointed Circuit Judge to succeed the late Judge Robert Riddell. Kelly Kash, of Jackson, has been appointed Commonwealth's Attorney to succeed Adams. J. Wise Hagins, County Attorney of Breathitt, and publisher the Breathitt County News, was a strong applicant for the Judgeship.

This Bank Offers You Complete Safety and Makes Your Money Aid Prosperity.

SAFETY.

When you are asked to put your money in a bank you have a right to know and should know just how and why that bank is safe. We want you to understand the reasons for the supreme safety of this Bank.

The Clay City National Bank

is organized under the National Banking Law and is under the constant supervision of the United States Government.

Not less than five sworn reports must be made each year, and these reports are always called for an unexpected date in the past. The affairs of this bank must always be in such shape that we can make a satisfactory, detailed statement to "Uncle Sam" for any past date that the Comptroller of the Currency may pick out.

This means daily readiness. These reports must be published and must be verified by the expert Bank Examiner whom the Government sends here to thoroughly examine this Bank twice each year, at unexpected times.

This Bank has PAID IN CAPITAL of \$50,000.00, Surplus of \$7,800.00, and under the Federal Banking laws applying to National Banks, its stockholders are liable for \$50,000.00 making altogether \$107,800.00, which stands, not as the total security, mind you, but as the margin of security protecting its depositors. All of this sum must be lost before any depositor can lose a penny.

This Bank is restricted by law to conservative business methods.

The funds are protected by modern steel vaults and insured against burglary and sneak thieves.

Its officers and employees are under bond for the faithful discharge of their duties.

All of these things, coupled with conservative management, insured by the careful, personal attention constantly given the Bank's affairs by a notable able Board of Directors, assure our patrons of that supreme safety which is the prime essential of a good Bank.

The Man Who Hides His Money Invites Robbers and often Loses His Cash.

Easy to Mix This.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder derangement, in the following simple prescription, if taken before the stage of Bright's disease:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

LOCAL BREVITIES.

What has become of the "full dinner pail?"

Judge Fletcher has been confined to his room the past week with the grip.

Mrs. C. W. Campbell, who has been so sick for some time, is now improving very nicely.

John. W. Mize, of Vaughn's Mill, visited his brother, W. O. Mize at Cob Hill, a few days last week.

Mr. and Mrs. J. E. Niblack, are rejoicing over the arrival of a little girl, born, Tuesday, Feb. 18, 1908.

R. A. Smethers, of Miller's Creek, and J. R. Witt, of Irvine, were here a short while on business Tuesday.

Mrs. Williams is now running her great annual Cut price sale for 30 days. See announcement in her regular space this week, and go investigate for yourself. 'Twill pay you.

Mr. and Mrs. J. C. Allen, of Dodge City, Kas., arrived here yesterday evening and are now at the latter's parents, Mr. and Mrs. C. W. Barnett, at Vaughn's Mill.

Instead of the work seeking them, laborers are now seeking work, and the price is from one-third to one-half off from last year. Prosperous times, you know.

Elder D. G. Combs who was billed to make a series of temperance speeches here and at Stanton, is at his home sick and unable to keep his appointments.

Fletcher Barnett will move to Hardwick's Creek March 1st and farm this year. The store here will be under the management of J. C. Allen, now of Dodge City, Kansas, a brother-in-law to Mr. Barnett.

To all who will pay up all arrearages and one year in advance, we will send the Southern Agriculturist free for one year. If you want it don't forget to ask for it. The Agriculturist is one of the best farm papers published.

Our space has been crowded with advertising so the past few weeks that we have not had enough room to do justice to our local and correspondence columns. We will make up for this deficiency in the future if we have even to make our paper much larger.

The Georgetown Times, very wisely says: "Our creamery is not running regularly on account of scarcity of milk. What we need is more cows, more sheep, a better quality of live stock, more grass and grain and fewer tobacco barns with better shelter for our live stock.

A Popular Paper.

Several of our subscribers have taken advantage of our premium offer paid up all arrears and for one year in advance and secured the Southern Agriculturist one year free. We offered this paper as a premium two years ago and every one who got the paper spoke of it in the highest terms. It's free to all who pay what they owe to this paper and one year ahead. Ask for it if you want it.

Judge Young Don't Like Big Damages.

At Mt. Sterling the verdict of \$10,000 given Mrs. Blanche Brashear in that county against the Chesapeake and Ohio railroad was set aside by Circuit Judge Young and a new trial was granted. Mrs. Brashear has secured two verdicts for the killing of her husband by defendant company, but both have been set aside by the Circuit Judge. The first verdict was for \$9,500 and was set aside by Judge Young on the grounds the verdict was too large amount.

Local Option Election.

The local option election will be passed before another issue of the Times. But little has been said to what might be expected. The campaign has been very quiet. The wet people are confident while the temperance people are also confident, but to us it seems that it is pretty much all one way—for local option, still over confidence has lost many victory. Let every voter do their duty and the victory is gained. Wednesday, February 26, is the day to settle it.

I am now, and always will be, as I have been in the past, in favor of temperance legislation; and that for two reasons:

"First—Because in my judgment and as the result of my official experience, 90 per cent. of the crime of the State is due to liquor.

"Second—Because of the pernicious activity of the liquor interests in politics. So great is my interest in the passage of the

CAMBRIDGE

The Cambridge Reversible Sulky Plow is the highest type of plow of the twentieth century—constructed on correct, scientific and mechanical principles. It is the result of a constant endeavor to produce a perfect riding plow, and has 62 years experience in plow making back of it. The demand of the times has been for a better riding plow—the Cambridge meets that demand and only needs to be tried to convince the farmer that it is the superior of any riding plow ever before produced. It will do all the work equally well on level land or on the hill-side; will leave the soil smooth and free of ridges and dead furrows; works with lighter draft than any hand plow doing the same work—easy on man and team. Made in two sizes and from the best malleable iron and high grade steel; Improved and extra heavy steel wheels with dust cap and removable oiling boxes. Easy to manage, always under perfect control.

SUCCESSFULLY OPERATED BY ANYONE WHO CAN DRIVE A TEAM

You'll want to know all about the Cambridge before you buy a new plow. Write today for a special circular describing its construction and working points. We'll send it free also complete catalog of our Farm Tools that will interest you. If we have no dealer in your town, we want to make you a special Price Offer that will save you some money. County Unit Bill that I am perfectly willing to drop out of the race for the United States Senate if the Republicans will agree to pass the County Unit Bill and submit to a vote of the people next fall a prohibitory constitutional amendment making the State a unit."

Ex-Governor Bradley was asked the same question, and he said he and the majority of the Republican members were in favor of the County Unit Bill. However, he so prevaricated in his answer, that it might be construed that they would not vote for the measure unless he was elected Senator, and all the contesting Republicans seated in the Legislature.

Parrish, the largest tobacco grower in Central Kentucky, and one of the wealthiest citizens of Woodford county, who was sued by the Burley Society for damages for the sale of an alleged-pooled crop, has advertised for public sale his farm of 900 acres upon which has just been completed a \$30,000.00 residence.
